"Most young puppies can't hold it for the entire night, so pet parents must be able to hear when the puppy wakes and cries to go out," says Schade. "If not, the puppy might be forced to soil the crate." Give your puppy plenty of exercise. To stop your puppy from whining in the crate, don't underestimate the power of playtime.

What to Do When Your Puppy Whines in His Crate | PetMD

A crying baby is trying to tell you something. Your job is to figure out why and what — if anything — you can do about it. Over time you might be able to identify your baby's needs by the way he or she is crying. For example, a hungry cry might be short and low-pitched, while a cry of pain might be a sudden, long, high-pitched shriek.
