Cybersecurity and Human Rights | Public Knowledge

In their essay "Law and Borders – The Rise of Law in Cyberspace", David R. Johnson and David G. Post argue that it became necessary for the Internet to govern itself and instead of obeying the laws of a particular country, "Internet citizens" will obey the laws of electronic entities like service providers. Instead of identifying as a physical person, Internet citizens will be known by their usernames or email addresses (or, more recently, by their Facebook accounts).
