Making foreign direct investment work for LDCs 19 Oct 2017 The 47 least developed countries (LDCs) are the world's poorest countries and typically they, and much of their private sector, do not have the human and financial resources to participate effectively in investment-related negotiations and secure the most favourable results for their economies and people.

Making foreign direct investment work for LDCs | IDLO ...

Foreign direct investment (FDI) is when a company owns another company in a different country. FDI is different from when companies simply put their money into assets in another country—what economists call portfolio investment. With FDI, foreign companies are directly involved with day-to-day operations in the other country.
