Amazon calculates a product's star ratings based on a machine learned model instead of a raw data average. The model takes into account factors including the age of a rating, whether the ratings are from verified purchasers, and factors that establish reviewer trustworthiness. Sheconomics: Stuck in a Wardrobe Rut?

The show's ten episodes tell the story of how three people on an island gradually develop an advanced economy. Characters Able, Baker, and Charlie discover key economic concepts such as capital and risk, comparative advantage, and money. Whether you use one video as a standalone lesson or assign the entire series, economics can be fun!

Welcome to "sheconomics." TIMES HAVE CHANGED. I think it is fair to say that we've all known or suspected that in today's economy women are making the home purchasing decisions. It is repeated from a variety of sources that they make 85 percent of the buying decisions and, according to Time magazine, are the "chief purchasing
