### Tracer? TD7 with UC 800 for CGAF chillers / User Guide

The algorithms embedded in the Tracer UC800 controller work with the unique capabilities of the the latest generation of Trane screw chillers to keep them running under the most challenging conditions, when other chillers would simply shut down. Tracer UC800 supports the following open protocols: BACnet TM, LonTalk ®, Modbus RTU.

### Tracer™ UC800 | Trane United Kingdom

The unit "On-Off" switch, provided by Trane, is typically housed in the control box mounted in the left hand end pocket immediately below the discharge grille. When Tracer ZN520 or Tracer UC400 unit controllers are used, the unit switch is located on the switch module in the end pocket behind the front panel rather than below the grille.
